Key information and services provided:

- Project value: £1.6m
- Completion - 1Q 2018
- BREEAM Very Good Sustainability rating
- Project and Costing management
- CDM Principal Designers
- Co-ordination and management of engineering services
- Co-ordination and management of architecture, design and sustainability services

Key achievements:

- Combining the current delivery of Animal Management studies into one purpose built building onto their college owned campus on the edge of Skipton.
- The new facility will consolidate, enhance and provide a 'best in class' teaching and learning environment for Animal Management studies specific to the local region that the College serves.
- Dunlop Heywood worked with Craven College to secure funding from the Local Enterprise Partnership (LEP).
- Fully accessible design incorporates woodland areas to the rear of the building.
