

CASE STUDY - BUILDING CONSULTANCY

SPEEDY HIRE PLC

Our retail Project Management team were engaged to establish a strategic plan and deliver the refurbishment of 30 trading depots and acquisition and fit out of 13 new sites across the UK.

To discuss our Building Consultancy Services speak to:

Neil Leetham
neil.leetham@dunloph Heywood.com

Working alongside our client to understand operational requirements, Dunlop Heywood produced a client specific design and specification to support their business needs.

We advised on all aspects of the initiative to assess its viability including costs, design, functionality, planning and compliance.

Open communication through the procurement programme linked with our knowledge of client's expectations, operational requirements and ethos all contributed to the overall success of the project.

From inception to completion, Dunlop Heywood provided a full range of consultancy services including acquisition advice, design, cost consultancy, contract administration and project management services and all to deliver a scheme to the satisfaction of the client.

Where the target premises represented an addition to the network of live sites, we provided pre-lease acquisition advice relating to the condition of the premises.

Dilapidations advice was provided in respect of the depots which were to be vacated as part of the relocation programme.
